## ABOUT ME

A highly motivated Digital Technology & Innovation student with expertise in Front-end, Back-end, and RESTful API development. Passionate about building efficient digital solutions and maintaining high-quality standards in technology-driven industries.

## KEY SKILLS

### Languages:

JavaScript, Python, PHP, C# (.NET), Dart

### Front-end:

HTML / CSS, React, React Native, Flutter

### Back-end & API:

MySQL, RESTful API, PHP, Node.js

### Tools :

Git, Postman, Thunder Client

## EXPERIENCE

### • Mathematics Tutor (Part-Time)

#### Cymath (Emquartier) 2023 - Present

- Tutored mathematics for students (K.1 - Y.10) with engaging lesson plans.
- Used Python & Google Sheets to assist in student performance assessments.
- Provided personalized support to enhance academic progress.

### • Flutter Project (During Study)

- Developed a mini finance tracking app using Flutter & MySQL, focusing on basic CRUD operations.
- Implemented transaction recording and financial summary display using async/await for database interactions.

### • Full-Stack Development (During Study)

- Learned Front-end & Back-end development using JavaScript and React.
- Gained experience in building user interfaces with React and managing API interactions.

## EDUCATION

### Southeast Asia University (SAU)

Bachelor of Technology (Digital Technology and Innovation)  
2025 (Expected) - Cumulative GPA: 4.00 (Based on 6 semesters)

## COURSES & TRAINING

### • Link Campus Cabling & Networking

Link American Standard (Interlink)

### • ISO 9001:2015 Quality Management System

Q&A Quality and Calibration Co.,

## SPECIAL INTERESTS & HOBBIES

- Reading manga, writing novels, gaming, and learning coding.
